• Sal of sub is very low & sub cues & PFC seek sub cond cues have little or no influence on sub.

SAUCENCY OF  
DRUGS  
& DRUG  
RELATED  
CUES  
DRIVE  
ADDICTIVE  
BEHAV

• sel & rewards  
→ overrules sel sub

- Sel sub & sub related cues → this overrules PFC cont behav

- PFC can no longer drive to seek sub

- cond cues response of sel sub, further of sub seeking behav

- sel sub overrules sub & rewards with no large influence on behav.
